

YAMAZEN

Corporate Profile

GREETINGS

Firstly, I would like to express my sincere gratitude for your continued support and patronage.

The Yamazen Group is a “double-winged” trading company that specializes in two major fields: production equipment and consumer goods. In the field of production equipment, we support the manufacturing industry by supplying machine tools, industrial machinery and equipment, and industrial tools, while in consumer goods, we strive to preserve everyone’s quality of life through supplying housing equipment and materials and home products. Through deeper, more industry-savvy expertise structured on “product,” “knowledge” and “information,” the Yamazen Group has been providing solutions to customers’ problems and contributing to improved quality of life.

We have not achieved this alone, however, and I would like to express my heartfelt gratitude to all our stakeholders, notably our customers, business partners and shareholders, for their ongoing cooperation and support that have allowed us to realize all our achievements since our founding in 1947.

We are now witnessing a great transformation in the world. Dizzying changes are afoot, affecting both the industrial structure and the market environment, and these changes are taking place on an ever expanding global stage. Aware of this new age with its changing environments, we are preempting big changes in manufacturing with respect to IoT and AI, lifestyles and consumer habits. In order to respond to such change, we have been changing our own business to transition from a company that simply sells products into a “change-readiness business” that responds to the changes in the world, and contributing to providing solutions to customers’ problems and improving quality of life.

Moreover, in addition to conducting our various business activities, we also seek to continue being a useful member of society as a good corporate citizen. We will therefore actively strive to fulfill our corporate social responsibilities in management.

Looking to the future, we will strengthen our “field strength” to better meet the trust and expectations of our stakeholders and society in general, always from our customers’ viewpoint, and actively aspire to be a “youthful company unafraid of change” that embraces swiftness in order to further continue our efforts. Accordingly, I look forward to your continued cooperation and support.

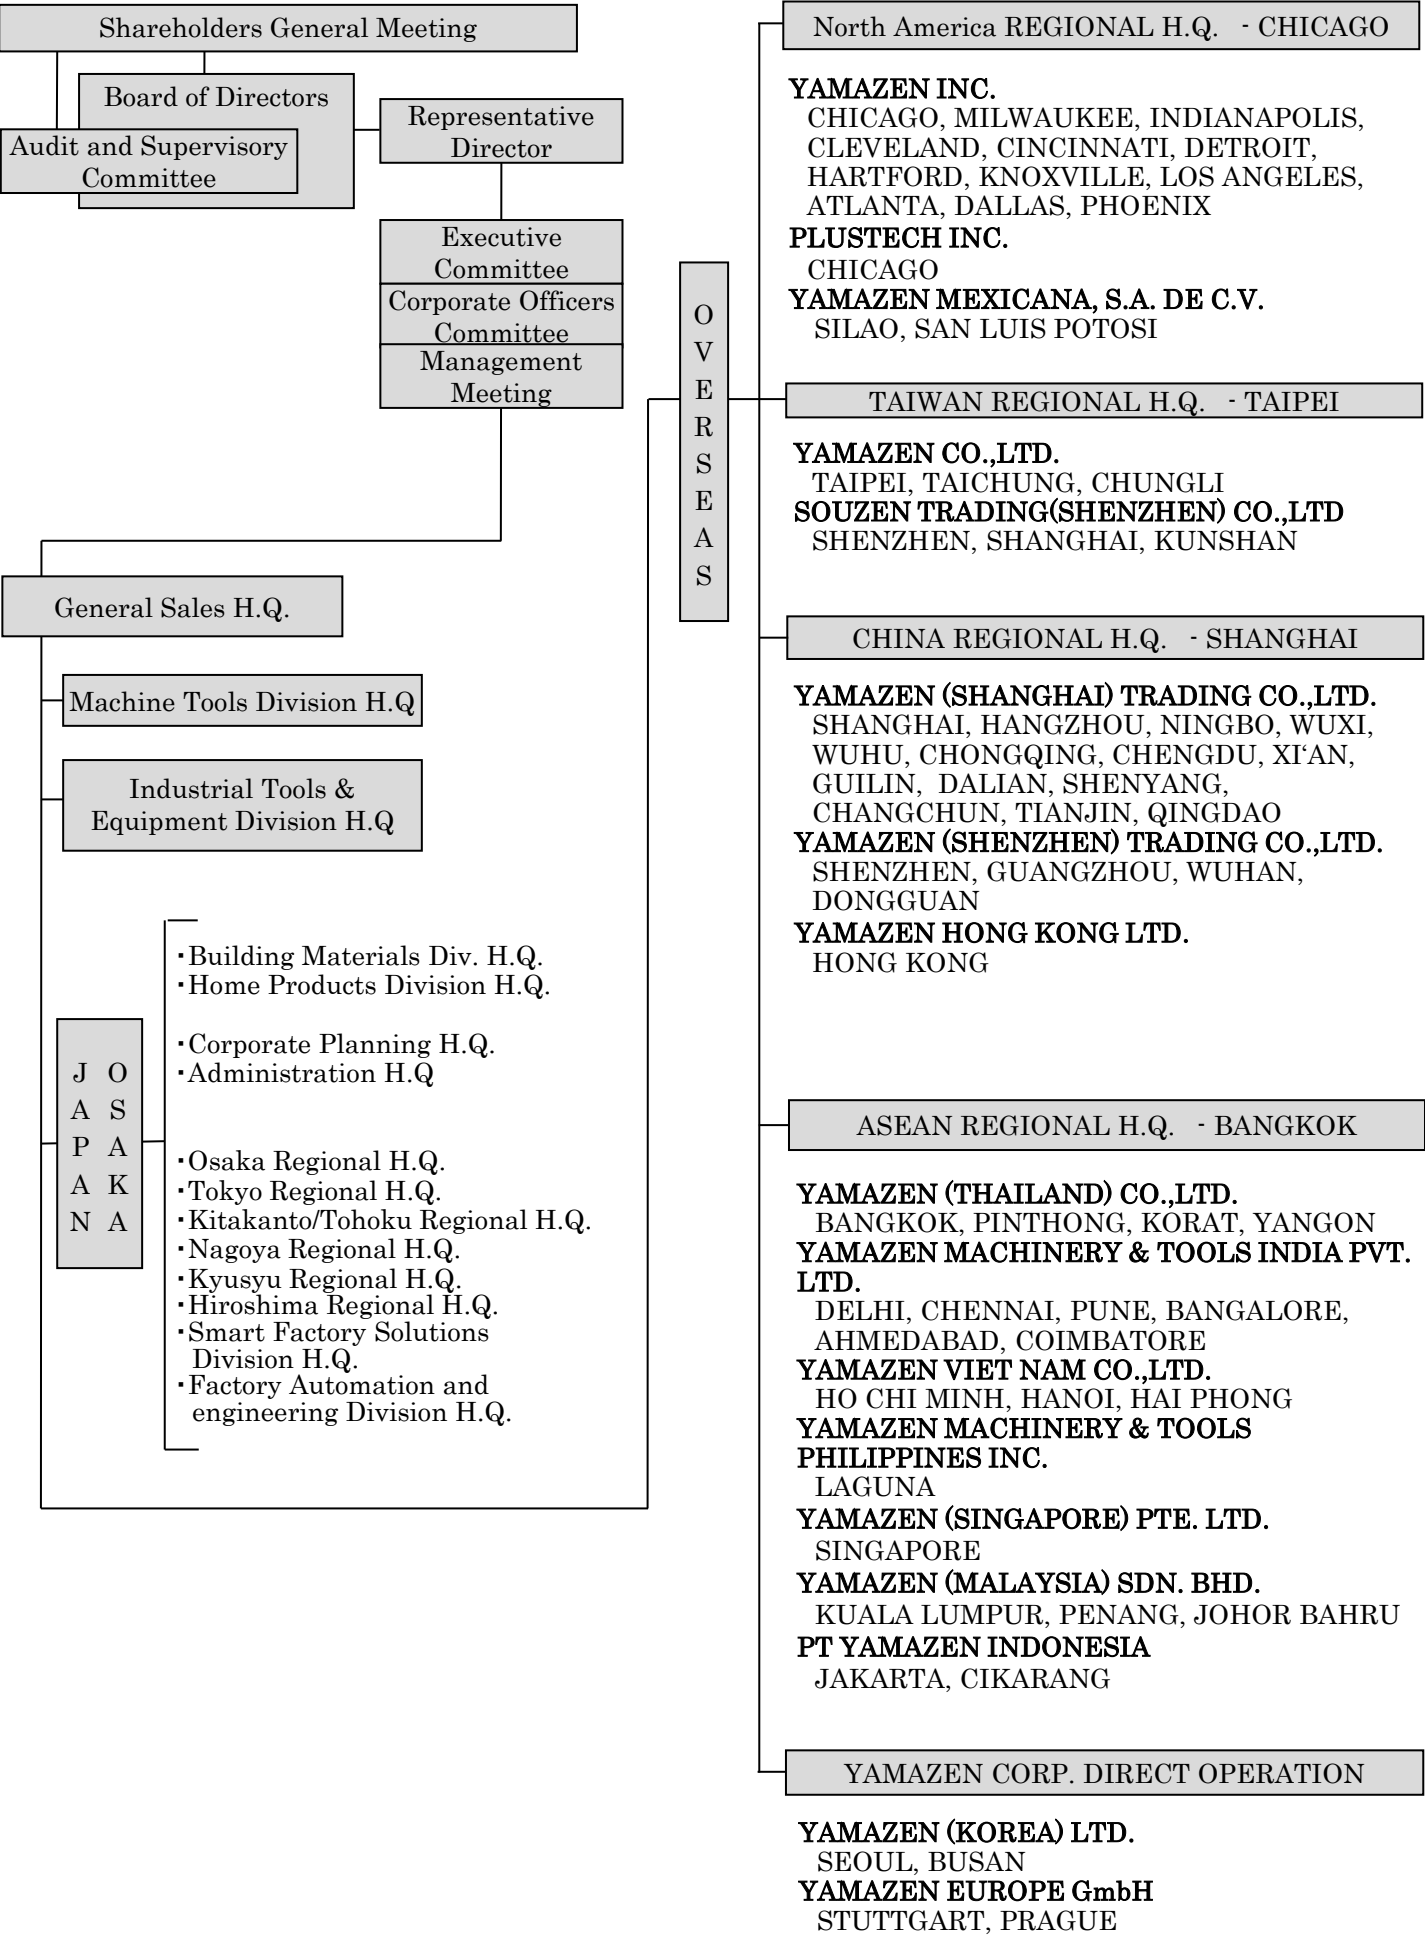

President CEO & COO

Yuji Nagao

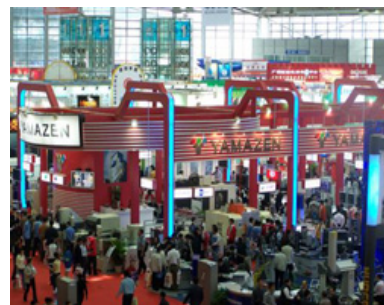

Name	YAMAZEN CORPORATION
Address	2-3-16 Itachibori,Nishi-ku,Osaka 550-8660,Japan

Organization of YAMAZEN

Import, Export, International Procurement,
Trans-Plants, OEM Businesses,
Triangle Business Transactions and Consulting
& Arrangement of International Technical
Collaboration.

Through our international business activities,
we provide high-quality production equipment
and systems to worldwide customers with
our excellent engineering services added as the
"SENMON-SHOSHA(a specialized trading company),
predominantly handling production equipment
such as CNC machine tools, industrial machineries
and industrial equipment & tools.

Also, we import overseas advanced production
equipment, consumers products,
semi-finished products, parts and
materials to Japan. Moreover,
we perform various kinds of
global-scale technological exchange,
such as territory-based marketing,
triangle trades, technological tie-ups.

In addition, along with the increasing number
of transplants from Japan and expansion
of their local production bases,
we also provide global-scale information
services; consultation services; domestic or
localized purchasing of production facilities
and materials; packaged transportation service
to local plants; machinery installation,
inspection, trial operation, CNC
programming, maintenance training,
and periodic servicing at local plants in Asia,
U.S.A. and Europe.

YAMAZEN as the 'SENMON-SHOSHA' (a specialized trading company), predominantly handing production equipment such as CNC Machine Tools, Industrial Machineries and Industrial Equipment & Tools would like to be your best partner and solutions provider that will open up new possibilities for your success from a global perspective through our worldwide network and sound & aggressive business activities.

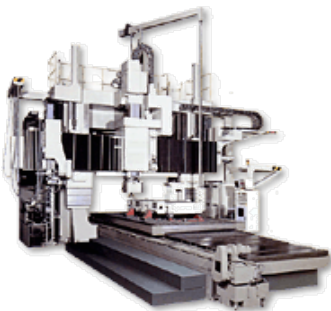

Machine Tools

Machine Tools

Vertical Machining Centers, Horizontal Machining Centers, CNC Horizontal Boring & Milling Machines, CNC Drilling & Tapping Centers, CNC Gundrilling Machines, Machining Cells and Systems, FMS, FTL, Special Purpose Machines.

CNC Lathes, CNC Milling & Turning Centers, CNC Vertical Turning Centers, CNC Automatic Lathes, Bar Feeding Systems, Gantly Loading Systems and Other Peripheral Equipment.

CNC Grinding Machines, EDM, CAD & CAM Systems, Robots, Conventional Machine Tools and others.

FORMING & FABRICATING MACHINE TOOLS

Bending Machines, Hot & Cold Forming Machines, Power Presses, Press Brakes & Shears, CNC Turret Punch Presses, Laser Cutting Machines, Laser Marking Machines, CNC Drilling Machines for structural steel, Band Sawing Machines.

Major Product

Industrial Machinery

Plastic Injection Molding Machines, Fully Electric Disc Replicator (for CDR, CD-RW, DVD-R, DVD-RAM, MD, MO) & Peripheral Equipment, Aluminum Die Cast Molding Machines and Peripheral Equipment.

Industrial Equipment

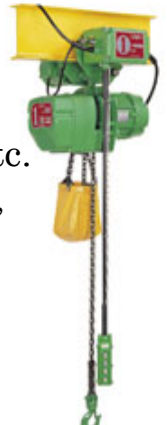

Auxiliary Equipment & Devices for Machine Tools: Ball Screws, Curvic Couplings, Drilling & Tapping Units, Collet Chucks, Rotary Switches, Manual Pulse Generators, ATC Magazines, Tool Post, Various Sensors, Oil Mist Collectors, Oil Mist Generators, Chip Breakers, Parts-washing Machines, Various Robots, Horizontal & Vertical Band Sawing Machines
Engineering Equipment: Generators, Welders, Air Compressors, Chain Blocks, Mechanical & Hydraulic Jacks, etc.

Steel-Structural Fabricating Equipment: Band Sawing Machines, Drilling Machines, Deburring Machines, Bar-Bending Machines, etc.

Power Transmission Equipment: Geared Motors, Bearings, Rollers, Motor Rollers, Conveyors, Couplings, Ball & Roller Bearings, etc.

Switching Power Supplies and Uninterruptible Power Systems,

Anti-Pollution Equipment, Environment-improving Equipment.

Major Product

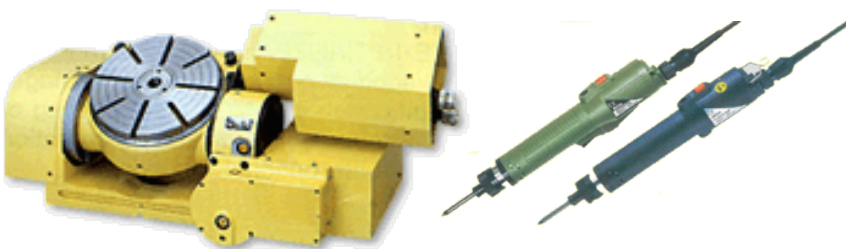

PCB Fabricating, Assembly, Inspection Equipment

Surface Mounting Machines & Peripheral Equipment, Dispensing Systems & Equipment, Screen Printers, Reflow Oven, Automated Optical Inspection Machines, Insertion Machines, PCB Drilling Machines, Robots, etc.

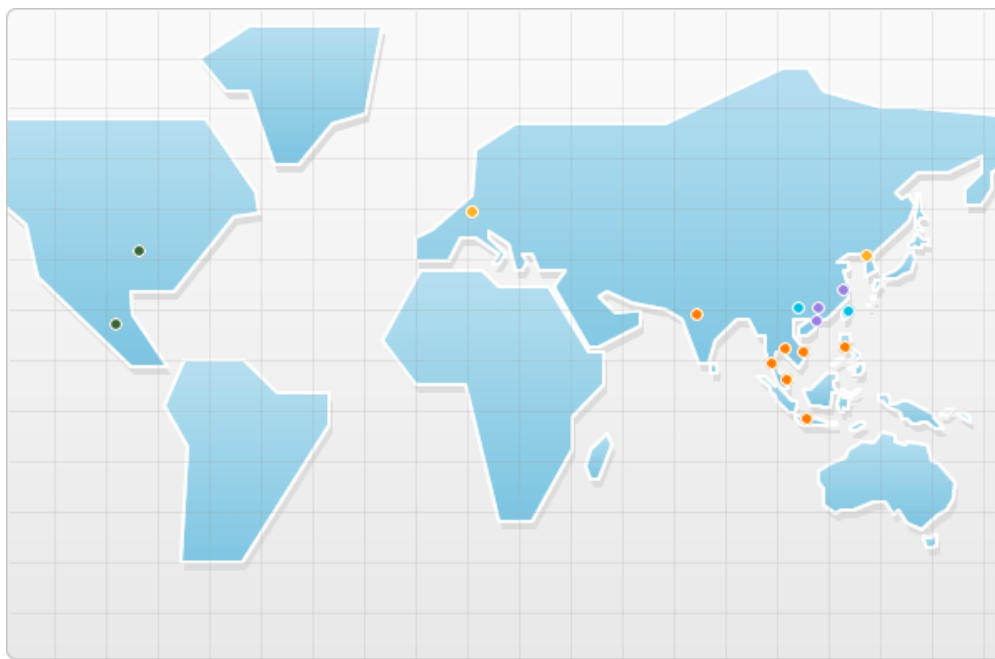

Industrial Tools

Various Cutting Tools (regular and specified), NC Toolings, NC Tables, Chucks, Vises, Jig Plates, Clamping Tools, Measuring Tools & Equipment, Precision Surface Plates, Grinding Wheels, Abrasive Belts & Papers, Electric & Pneumatic Portable Tools, Hydraulic tools, Tool Grinders. Small Machine Tools, Assembly Robots & Peripheral Accessories and other various tools & parts for plant's maintenance, repair and plant's operation.

World Map

Sales & Service Network

YAMAZEN conducts global operations through a worldwide business network composed of 17 local corporations and total of 65 sales & technical service offices. One of the important characteristics of our international business is high levels of engineering services mainly conducted by locally employed application and field engineers who have the expertise in a wide range of production technology. We do not simply sell products, but maximize the performances of individual products and systems and provide our know-how for most efficient operation. And through close discussions with users and builders, we can provide the best solution in individual cases.

Recently, production system technologies have become more and more complex and sophisticated.

Under such a circumstance, Yamazen people, who provide undated information and suggest the optimum solutions, will be of great help to worldwide customers.
